

# DISPLAY STANDARDS FOR BOOTHS

## SUPER EXPO-SCIENCES HYDRO-QUÉBEC, Quebec Final

## CANADA-WIDE SCIENCE FAIR Sciences Jeunesse Canada

- **1st CHOICE:** Create posters specifically for the Super Expo-sciences Hydro-Québec, then make new ones for the Canada-Wide Science Fair.

If you choose this option, refer to the grey areas and respect the maximum dimensions indicated in black on the diagrams. For the Canada-Wide Science Fair, we recommend that you limit yourself to the area within the blue dots (95 cm x 126 cm) to avoid obstruction by the title banner.

- **2nd CHOICE:** Create posters which can be used for both the Super Expo-sciences Hydro-Québec and the Canada-Wide Science Fair.

If you choose this option, refer to the area within the red-dotted lines and respect the maximum dimensions indicated in red on the diagrams.
