

Exhibit's number: _____ Judge's number _____ Solo Duo

Title: _____

- Categories:
- Biological and health sciences
 - Engineering, computer science and robotics application
 - Social sciences and social networks
 - Pure sciences
 - Environment and ecosystems

Exhibitor name(s): _____

SCIENTIFIC VALUE (60%)

CHOOSING THE SUBJECT (MAXIMUM OF 8 POINTS) *maximum score / score given*

The problem is well know and understood	0 - 4	
The research objectives are clearly stated	0 - 4	

SELECTING THE INFORMATION (MAXIMUM OF 14 POINTS)

Variety (the information is complete and sources are diversified and recent)	0 - 4	
Accuracy (the information is factual and confirmed by various field publications) and relevancy (the information conveyed relates well to the phenomenon under)	0 - 10	

UNDERSTANDING OF THE SUBJECT MATTER (MAXIMUM OF 17 POINTS)

Understanding of the subject matter (information is transmitted clearly and properly linked with the subject matter)	0 - 6	
Reflection (the exhibitor is able to extract the appropriate conclusions from the study)	0 - 5	
Demonstration of learning (ability to answer questions, envision concrete application or new perspectives on the subject and have a critical mind)	0 - 6	

PROCESSING OF THE INFORMATION (MAXIMUM OF 8 POINTS)

Structure and consistency (is there a logical sequence and increasing complexity of the collected information that facilitates audience understanding)	0 - 5	
The use of terminology is appropriate	0 - 3	

INNOVATIVE APPROACH AND PRESENTATION (MAXIMUM OF 13 POINTS)

The approach is creative and original (there is educational support illustrating the theory, diagrams, tables, charts or objects)	0 - 13
